About Company

Completion by 2024

To be connected with the vapers with the world with Connected Korea Inc.

Connected Korea Inc. was founded in 2009 and sold and developed various e-liquids and devices with their own technology.

Through consistent research and development, Connected Korea Inc. has registered 20 patents and has expanded its global competitiveness through localized and unique Korean flavours.

Connected Korea Inc. is leading Korean vape culture by ranking first place in e-liquid sales categories and receiving a number of reviews and an average rating of 4.9/5 on NAVER STORE, Korean largest e-commerce.

Moreover, in order to enter the global market, Connected Korea Inc. attended the global vape exhibition as a main sponsor several times.

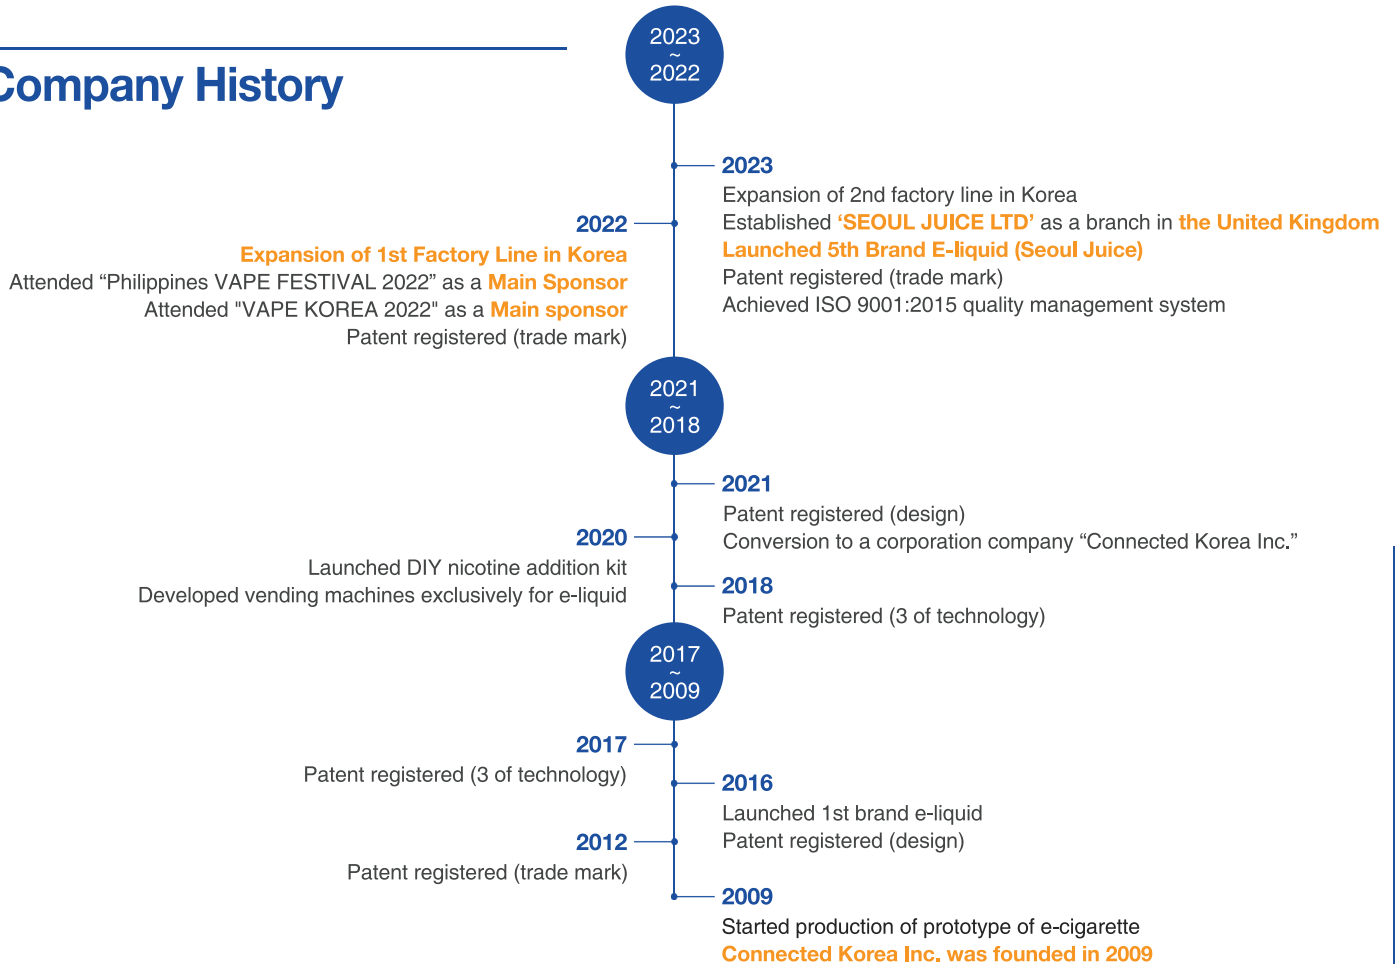

Currently, the new headquarters and factory are under construction, which is the largest facility, in Korea, for meeting the needs of domestic and international customers.

Also Connected Korea Inc. established 'SEOUL JUICE LTD' as a branch in the United Kingdom.

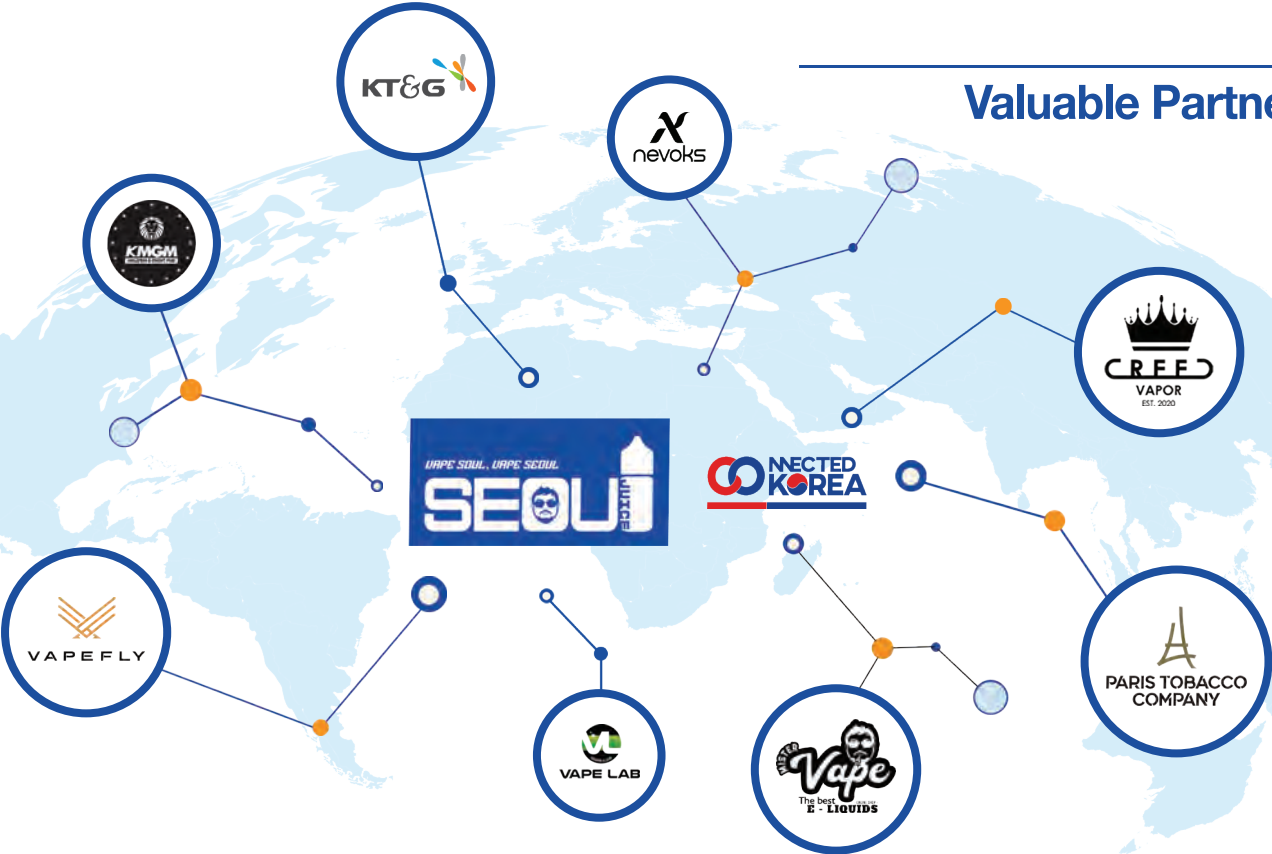

Connected Korea Inc. will work for a "Connected vaping culture" between the United Kingdom and Korea.
